

URGENT!!!

ADORABLE 'ASLAN'

NEEDS A NEW HOME

Are you a BIG DOG person with a BIG HEART?
Then Aslan could be the dog for you.

Aslan is a gentle giant who weighs in at about 50kg. He's an affectionate and loving Mastiff cross who's 8.5 years old. He is looking for a new home because his owners are moving to a retirement village that only allows small dogs.

In his current home, Aslan loves coming inside each afternoon and evening. He is looking for a home where he will be allowed inside at least some of the time. He doesn't have a mean bone in his body, but because of his size, he's better suited to home with older children or no children.

Aslan walks nicely on lead and is quite obedient. In his current home, he is taken for two walks a day for about ½ hour. These walks are very important for his health and to keep life interesting. He has good basic training and usually does as he's told.

He gets along well with other dogs, and enjoys an outing to the dog park, although he's been a little more cautious since he was attacked out of the blue by another dog. The poor gentle giant didn't know what to do when he was attacked. Since then, he's just as happy to chase a ball rather than play with the other dogs. Aslan would be very happy living with another friendly, easy-going and mature dog for company.

Aslan has a thyroid problem which is not a big deal health wise, but he does need daily medication made up by the compounding pharmacist. His current

owner can tell you more about this. He is desexed, microchipped and vaccinated.

Aslan is a big dog and will need high fences in good condition at his new home. In his current home, he's been escaping a fenced off area they built for him, but he only escapes to come and sit on the back step.
