ADOPT A GREYHOUND MONTH!

LUCY

This sweet girl is settling into pet life with her foster carers. Luckily she has another greyhound that she follows around the house who is showing her the ropes on how to be a pet. She's a bright young girl, since arriving she's learned how to use the doggy door and is even mastering commands such as 'wait', 'no', 'mat'. She's also learning how to wait patiently on her mat for dinner until given the 'ok'.

When she's alone, she'll benefit from crate training or a bedroom that she considers her safe space, where she can retreat to. She loves food and treats making her infinitely trainable.
