

MABEL NEEDS A NEW HOME

- ❗ Mabel is a 3-year-old Great Dane looking for a new home through no fault of her own.
- ❗ She has vision problems caused because both her parents were merle coloured Danes.
- ❗ Breeding two merle coloured Danes often results in a dog being born with vision and/or hearing problems and so is usually avoided.
- ❗ Mabel has vision problems because of her genetics but can see well enough to move around without bumping into things too much.
- ❗ She is otherwise in good health.
- ❗ Mabel has not had a lot of practice walking on lead or experience of the wider world before to coming to live with her current owner.

- ❗ Her current owner has been working with her every day and she is improving all the time.
- ❗ Mabel is very friendly with both people and other dogs but tends to get over excited initially and can seem intimidating to some because of her size.
- ❗ Because she can be a bit boisterous, she is best suited to a home without young children because she may knock them over.
- ❗ An experienced Dane owner would be perfect for her or anyone experienced with large dogs and dogs who need consistent and ongoing training.
