

TIMMY NEEDS A NEW HOME

Timmy is only 12 months old, Kelpie cross, he has had a rough life before coming to us, he was extremely thin, starving, full of worms, covered in scabs and was terrified of everything, we just knew there was this beautifully natured boy in there somewhere just waiting to come out and he proved us right, his eyes said it all, he needed help and has come a long way and is now ready for his new "forever" home.

He's made great progress, he needs a kind and patient home that can build his confidence. He's house trained, loves other dogs and toys! The dog toy box is one of his favourite discoveries about living in the house.

Timmy is very smart and athletic. With the right person he might do well at dog sports. He's a very sweet and gentle boy. Only barks to alert that someone has come to the property. He's met horses and is not fazed by them.

Timmy would suit a experienced dog home preferably with another friendly dog to keep him company. He would not suit a home with cats.

He would be great for a retired couple who are still very active and have another dog around his size, a home by the sea would be great for him as well.
